

Lucky Six

Materials: Lucky Six gameboard, die, counters of 2 different colors

1. Play with a partner. Take turns to roll the die.

If you roll a 1 you must add 20 to it.

If you roll a 2 or a 4 you must add 40 to it.

If you roll a 3 or 5 you must add 50 to it.

If you roll a 6 you may choose to add 10, 20, 30, 40, 50, 60, 70, 80, 90, or 100 to it.

2. Say the math talk sentence aloud and cover the sum on your board with a counter. You can only cover one number on each turn.

I rolled a ____.
plus ____ equals ____.

3. Keep going until one player has four counters in a line vertically, horizontally or diagonally.

Lucky Six

21	76	55	53	44
42	36	44	76	21
53	16	53	26	36
96	106	21	46	42
53	86	56	55	66
